ESTABLISHED CHURCH OF SCOTLAND.					
Kingston ..	The Kirk ..	Rev. J. Radcliffe Rev. Dr. Milne	About 800	About 400	The average amount of attendants is by no means a fair representation of the amount of adherents. This church, which is the only one in Jamaica in connexion with the church of Scotland, includes in its membership a considerable number of people who, because of distance, are unable regularly to attend, except on sacramental occasions. That the actual attendance is no measure of the amount of adherence is shown from the fact that the actual number of communicants is nearly equal to the average number of attendants, a thing which could not, at least does not exist, except in cases similar to the present. The number of attendants which Mr. Radcliffe has returned may, it is computed, represent nearly a fourfold amount of adherents, and therefore this instead of being the church of some 400 people, is the church of some twelve or fourteen hundred.

## CHURCH OF SCOTLAND SCHOOL.

The only School, except the Sunday School, in connection with this Church, is "The Collegiate School"—an Establishment which, without exaggeration, may be represented as the chief School in the Island. Since its foundation it has trained a great number of young men—for the University—for the Church—for Medicine—for the Law, and for the Counting-House. The Scholars, including Day and Boarding, are about one hundred and twenty, and represent, from the width of the area from which they are collected, the training of the respectable portion of the island generally. Instead of a few ordinary Schools supplying a common education, this School in connection with the Scotch Church, affords an education of the highest to the highest class, while, it may be added, that in consequence of a certain arrangement, there is provision made, whereby it supplies a free education to a certain number of boys, who are the sons of reduced but respectable parents in connection with the Church.

"Other coins, in small number, are current at proclamation value, but they can scarcely be said to circulate."

#### AMOUNT OF COIN IN CIRCULATION.

Estimated at £300,000.

"But from the bank's returns, and constant importations, it is evident that a considerable amount is hoarded up."
